No one appeared to speak in favor or to oppose.

On motion by Councilman Wall, seconded by Councilman Paplauskas, it was voted to continue this license renewal application. Motion passed unanimously.

Under Discussion:

Councilman Donegan stated that this question is also somewhat retroactive to the previous business, Rainbow Water. We have continued these several times. He questioned if these businesses are operating without a license and having not paid tangible taxes. Solicitor stated that he has no personal knowledge whether they are or they are not in operation. He notes that with Rainbow Water, the agenda states that they have not been served. He is not sure why it is taking all these months to serve the Cease and Desist if in fact that is accurate information. That is the first question as to whether or not they are operating.

Chair asked what the procedure is would be. It is not Safety Services Chair or Councilmen's responsibility to go to these businesses and say to them that they are operating without a license. Who is supposed to be doing this? Solicitor stated that, ultimately, it is the enforcement branch of government, which he supposes it would fall to either the Police Department or Inspections.

Chair asked that the Clerk notify the Administration that these businesses are still operating under the suspicion of not having a license and this Committee would like an answer as to how this is going to be addressed.

Solicitor stated that approximately a year and a half ago, in an effort to streamline this process, he had given a legal opinion that it was not necessary for the mobile food establishments to actually appear before the Committee. They obtain a State license, then they go to the Clerk's Office to show State license and pay appropriate fee. It is essentially a ministerial act at that point. He gave an opinion that it was only necessary to bring someone before the Committee if there was an issue. It was just a matter of a ministerial act of handing out the license. There was no need to have them to physically appear because the Code is very clear. There is a process by which this Committee can follow. It does not necessarily require a formal vote. It states that the Committee has discretion to simply review these applications or approve them or ratify them, so there is no need for a hearing, no need for a question and answer session and he made that very clear about a year and a half ago. He was away for the past few weeks and was not aware that this agenda contained all of these mobile food establishments license on the docket for hearing or he would have said something. He is not sure why they are on the docket this evening and why these people have had to wait two hours for something that really should have been done

administratively, which going forward he reemphasized his earlier legal opinion that he does not believe it is necessary for these people to be inconvenienced and have to come before the Committee unless there is an issue such as #5 on the agenda, which indicates that they need a mobile license from the State. That is a reason to come before the Committee. The Committee can query that and find out what is going on, but the rest, there was really no need to have them be here. He strongly suggests going forward that we not follow this process any longer and revert to what we have been doing for the past year and a half. His advice to the Committee this evening is to take all the mobile food establishments on the agenda as a block except for #5, Griddle Me This and then call up the applicant of Griddle Me This and see what the situation is.

Chair stated that he cannot agree more. He asked for a motion to take all the mobile food establishment licenses #1 through 8 as a block except for #5.

On motion by Councilman Wall, seconded by Council President Marino, it was voted to take all the mobile food establishment licenses as a block except for #5, Griddle Me This. Motion passed unanimously.
