Mr. Robert F. Strom
Finance Director
City of Cranston
869 Park Avenue
Cranston, Rhode Island 02910
Dear Mr. Strom:

Buck Consultants, LLC (Buck) was retained to issue a report presenting the disclosure requirements under Statement No. 67 of the Governmental Accounting Standards Board Statement No. 67 (GASB 67). This report presents the results for the City of Cranston Fire Department and Police Department Pension Plans for the fiscal year ending June 30, 2014.

## Purpose of this Report

The plan sponsor may use this report to prepare the plan's and the plan sponsor's audited financial statements.
Unless otherwise noted in this report, the benefit provisions, actuarial assumptions and methods used for the calculations are the same as those summarized in the valuation report issued on December 6, 2013 and in a subsequent communication dated January 21, 2014.

Use of this report for any other purpose or by anyone other than the plan sponsor may not be appropriate and may result in mistaken conclusions because of failure to understand applicable assumptions, methods, or inapplicability of the report for that purpose. No one may make any representations or warranties based on any statements or conclusions contained in this report without Buck Consultants' written consent.

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, increases or decreases expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions or applicable law. Because of limited scope, Buck performed no analysis of the potential range of such future differences. An analysis of the potential range of such future differences is beyond the scope of this valuation.

## Recent Guidance

This report reflects information required as part of the new GASB 67 standards. These standards are effective for the financial statements for fiscal years beginning after June 15, 2013, i.e. the July 1, 2013 - June 30, 2014 fiscal year.

## Data Used

Buck performed the calculations using participant data as of July 1, 2013 and financial data supplied by the City as of June 30, 2014. Buck did not audit the data, although they were reviewed for reasonableness and consistency with the prior year data. The results of the valuation are dependent on the accuracy of the data.

Mr. Robert F. Strom
October 21, 2014
City of Cranston

## Actuarial Certification

The plan sponsor selected the assumptions used for the accounting results and funding policy calculations in the report with our advice. We believe that these assumptions are reasonable and comply with the requirements of GASB 67. We prepared this report's accounting exhibits in accordance with the requirements of these standards.

Based on the individually reasonable assumptions used in the preparation of this report, and on the data furnished us, we certify that projection of the costs under this plan has been made using generally accepted actuarial principles and practices, and that our recommended contributions make adequate provision for the funding of future benefits.

The valuation was prepared under the supervision of Philip Bonanno, a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries. Mr. Bonanno has met the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. This report has been prepared in accordance with all applicable Actuarial Standards of Practice, and we are available to answer questions about it.

The Table of Contents, which immediately follows, outlines the material contained in the report.

Respectfully submitted,

BUCK CONSULTANTS, LLC

Philip Bonanno, FSA, EA, MAAA
Director, Retirement Actuary

Section 1 - GASB 67 Information ..... 1
Section 2 - Plan Participant Data ..... 13
Section 3 - Actuarial Assumptions and Methods ..... 14
Section 4 - Summary of Plan Provisions ..... 17

## Section 1 - GASB 67 Information

## A. Summary of Significant Accounting Policies

## Method used to value investments

Investments are reported at fair value.

## B. Plan Description

## Plan administration

The City of Cranston (City) administers the City of Cranston Fire Department and Police Department Pension Plans (Plan), a defined benefit pension plan that provides pensions for all full-time firefighters and policemen of the City. Employees hired after July 1, 1995 become members of the State plan and do not participate in this plan.

## Plan membership

As of June 30, 2013, pension plan membership consisted of the following:

| Membership Status | Fire | Police | Total |
| :--- | ---: | ---: | ---: |
| Inactive plan members or beneficiaries currently <br> receiving | 222 | 205 | 427 |
| Inactive plan members entitled to but not yet | 0 | 0 | 0 |
| receiving | 29 | 13 | 42 |
| Active plan members | 251 | 218 | 469 |

Liabilities measured at the census date were projected to June 30, 2014 assuming no gains or losses.

## Benefits provided

Please see Section 4 of the report for a summary of plan provisions.

## Contributions

The City establishes contributions based on an actuarially determined contribution recommended by an independent actuary. The actuarially determined contribution is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2014, the City contributed $\$ 22,376,109$ to the Plan, including $\$ 381,765$ from the state.

## C. Investments

## Rate of return

For the year ended June 30, 2014, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was $15.78 \%$. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

## Section 1 - GASB 67 Information (continued)

## D. Net Pension Liability

The components of the net pension liability at June 30, 2014 were as follows:

## Components of Net Pension Liability

Total pension liability
Plan fiduciary net position
Net pension liability
\$324,937,270
$(66,642,298)$
258,294,972

Plan fiduciary net position as a percentage of the total pension liability

## E. Actuarial assumptions

The June 30, 2014 total pension liability was determined by rolling forward the June 30, 2013 valuation results, using the following actuarial assumptions, applied to all periods included in the measurement:

## Actuarial Assumptions

| Inflation | $3.00 \%$ |
| :--- | :--- |
| Salary increases | $3.00 \%$ |
| Investment rate of return | $7.50 \%$, comprised on average inflation rate of |
|  | $3.00 \%$ and a real rate of return of |
|  | $4.50 \%$. |

Census data was collected as of July 1,2013 . Liabilities measured as of the census date were projected to June 30,2014 assuming no demographic gains or losses.

Mortality rates for healthy lives were based on the RP-2000 Combined Mortality Table with Blue Collar Adjustment and improvements projected to 2023 with Scale AA. The same tables were used for disabled lives but set forward three years.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return and by adding expected inflation. Best estimates of rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2014 are summarized in the following table (note that the rates shown below include the inflation component):

| Asset Class | Long-Term Expected <br> Rate of Return | Targeted Allocation |
| :--- | ---: | :---: |
| Domestic equity (large cap) | $8.79 \%$ | $35.00 \%$ |
| Domestic equity (mid cap) | $10.85 \%$ | $5.00 \%$ |
| Domestic equity (small cap) | $10.93 \%$ | $5.00 \%$ |
| International equity | $9.09 \%$ | $15.00 \%$ |
| Fixed income | $4.96 \%$ | $35.00 \%$ |
| Real Estate | $5.92 \%$ | $5.00 \%$ |
| Cash | $0.90 \%$ | $0.00 \%$ |

## Section 1 - GASB 67 Information (continued)

## Discount rate

The assumed discount rate used to measure liabilities for valuation purposes is $7.50 \%$. The projection of cash flows used to determine the discount rate for GASB 67 purposes assumed that future City contributions will follow the contribution pattern of the most recent five years (see table below), which results in an assumption that the City will contribute approximately $89.4 \%$ of the actuarially determined contributions. Based on these assumptions, the pension plan's fiduciary net position is projected to fall short of meeting all future benefit obligations to current plan members. From the point where assets are projected to be depleted, a municipal bond rate of $3.66 \%$, based on the S\&P Municipal Bond 20 Year High Grade Rate Index, was used in the development of the blended GASB discount rate. The resulting blended rate of $7.29 \%$ was used to measure the Plan's total pension liability.
$\left.\begin{array}{|cccc}\hline \text { Fiscal Year Ending } & \begin{array}{c}\text { Annual Required } \\ \text { Contribution } \\ \text { (ARC) }\end{array} & \begin{array}{c}\text { Actual } \\ \text { Contribution }\end{array} & \begin{array}{c}\text { Percentage of } \\ \text { ARC }\end{array} \\ \text { Contributed }\end{array}\right]$

The ARC for the fiscal year ending June 30, 2014 was based on the results of the July 1, 2012 valuation, updated to reflect the benefit provisions of the Funding Improvement Plan. An ordinance of such provision changes was passed by the City Council and signed into law by the Mayor in April 2013.

## Sensitivity of the net pension liability to changes in the discount rate

The following presents the net pension liability, calculated using the discount rate of $7.29 \%$, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.29\%) or 1-percentage-point higher (8.29\%) than the current rate:

|  | $1 \%$ <br> Decrease <br> $(6.29 \%)$ | Current <br> Discount Rate <br> $(7.29 \%)$ | Increase <br> $(8.29 \%)$ |
| :---: | :---: | :---: | :---: |
| Net Pension Liability | $\$ 294,238,023$ | $\$ 258,294,972$ | $\$ 228,247,849$ |

## Section 1 - GASB 67 Information (continued)

## Notes to Schedule:

A. Benefit changes

None.
B. Changes of assumptions

There were no changes in assumptions.

Section 1 - GASB 67 Information (continued)

## Schedules of Required Supplementary Information (continued)

## Schedule of City Contributions

|  | FYE 2014 |
| :--- | :---: |
| Actuarially determined contribution | $\$ 21,006,057$ |
| Contributions related to the actuarially determined contribution | $\underline{(22,376,109)}$ |
| Contribution deficiency (excess) | $\$(1,370,052)$ |

## Notes to Schedule:

A. Valuation date

Actuarially determined contribution rates are calculated as of July 1 , in the following fiscal year in which contributions are reported. That is, the contribution calculated as of July 1, 2014 will be made during the fiscal year ending June 30, 2016.

B Methods and assumptions used to determine contribution rates:
Actuarial cost method:
Entry Age Normal, Level Percent of Payroll
Amortization method
Level dollar
Amortization period
For members in Court approved Plan:
Closed 28 -year period beginning with the July 1, 2013 valuation.
For members that opted out of Court approved Plan:
Closed 23-year period beginning with the July 1, 2013 valuation.
Asset valuation method
Market Value of Assets
Cost-of-living increases after retirement
For members in Court approved Plan:
Every other year COLA freeze for a ten year period effective July 1, 2013. In years 11 and 12 a 1.50\% COLA would apply and then a $3.00 \%$ COLA for each year thereafter, effective each July 1. Current and future widows will continue to receive $3.00 \%$ annual COLAs.

For members that opted out of Court approved Plan:
COLAs are frozen for a ten year period effective July 1, 2013. Upon the expiration of the ten year period, the COLA is capped at $3.00 \%$.
Salary increases
3.00\%

Investment rate of return
$7.50 \%$, based on an average inflation rate of $3.00 \%$ and a real rate of return of $4.50 \%$.
Retirement age
Assumptions related to age, service, and department are used for participants not yet receiving payments.

## Section 1 - GASB 67 Information (continued)

## Mortality

RP-2000 Combined with Blue Collar Adjustment and mortality improvements projected to 2023 with Scale AA.

Other information
Please see Section 3 of the report.

Schedule of Investment Returns

| Annual money-weighted rate of return, net of investment expenses | $15.78 \%$ |
| :--- | :---: |

| Data corrections | $\underline{0}$ | $\underline{0}$ | $\underline{0}$ | $\underline{0}$ |  |
| Participants as of July 1, 2013 | 13 | 0 | 166 | 39 | 218 |

Inactive Participant Statistics - Average Annual Benefits

|  | July 1,2012 |  | July 1, 2013 |  |
| :--- | :--- | :--- | :--- | :--- |
| Retirees | $\$$ | 60,007 | $\$$ | 61,750 |
| Beneficiaries | $\$$ | 33,628 | $\$$ | 34,142 |
| Disabled Participants | $\$$ | 53,671 | $\$$ | 55,129 |

## Section 3 - Actuarial Assumptions and Methods

## Actuarial Funding Assumptions

Funding valuation interest rate
7.50\% per annum

## Interest rate for accounting

7.29\% per year, compounded annually. Projected benefit payments that are expected to be paid from available plan assets are discounted at the valuation interest rate of $7.50 \%$. After the point where plan assets are not available to pay benefits, projected benefit payments are discounted at the municipal bond rate of $3.66 \%$.

## Municipal bond rate

3.66\%, based on the S\&P Municipal Bond 20 Year High Grade Rate Index.

Compensation increase rate
3.00\% per annum

Retirement age:
Police and Fire Department
Rates according to the following table:

| Years of Service | Percent Retiring |
| :---: | :---: |
| Less than 20 | $0 \%$ |
| 20 | $20 \%$ |
| $21-24$ | $4 \%$ |
| 25 | $15 \%$ |
| $26-29$ | $10 \%$ |
| 30 | $50 \%$ |
| 31 and greater | $20 \%$ |

$100 \%$ upon the attainment of age 65 regardless of service.
Healthy Mortality
RP-2000 Combined with Blue Collar Adjustment and mortality improvements projected to 2023 with Scale AA

## Disabled Mortality

Healthy mortality, set forward 3 years.

## Section 3 - Actuarial Assumptions and Methods (continued)

Disability Incidence

| Age | Rate |
| :---: | :---: |
| 20 | $0.12 \%$ |
| 25 | $0.17 \%$ |
| 30 | $0.22 \%$ |
| 35 | $0.29 \%$ |
| 40 | $0.44 \%$ |
| 45 | $0.72 \%$ |
| 50 | $1.21 \%$ |
| 55 | $1.21 \%$ |

92.5\% assumed to be accidental disabilities and 7.5\% assumed to be ordinary disabilities

## Turnover

Death and disability

## Marriage Assumption

$80 \%$ of active employees are assumed to be married with the husband assumed to be 3 years older than the wife.

## Expenses

Paid by the city.

## Participant Data

Retiree census data was supplied by the City. Liabilities measured at the census date of June 30, 2013 were projected to June 30, 2014 assuming no demographic gains or losses.

The experience study report dated March 2012 outlines the most recent comprehensive review of the actuarial assumptions noted above.

## Section 3 - Actuarial Assumptions and Methods (continued)

## Funding Methods

## Actuarial Cost Method

For funding, Attained Age Normal method with the UAAL funded on a level dollar basis over a closed period.

For accounting, Entry Age Normal. The actuarial present value of projected benefits of each individual is allocated on a level basis over the covered salary of the individual between date of hire and assumed date they cease active employment. The portion of this actuarial present value not provided for at the valuation date by the actuarial present value of future entry age normal cost is called the accrued liability.

Assets
Funding
Market value of assets

## Accounting

Market value of assets

## Amortization Period

For members in Court approved Plan:
Closed 28-year period beginning with the July 1, 2013 valuation.

For members that opted out of Court approved Plan:
Closed 23-year period beginning with the July 1, 2013 valuation.
Changes Since the Prior Valuation
None

## Section 4 - Summary of Plan Provisions

The plan is closed to employees hired on or after July 1, 1995.
Final compensation is the member's base compensation rate, including longevity and holiday pay at retirement.
Service is total employment by the City plus any purchased service.

## Service Pension

Eligibility $\quad 20$ years of service.
Amount A pension equal to $2 \frac{1}{2} \%$ of the member's final compensation for each year of service up to 20 years plus $2 \%$ of final compensation for each year of service, up to 10 years, in excess of 20 years. An additional 5\% of final compensation is added to the pension at age 55.

## Deferred Pension

Eligibility $\quad 10$ years of service.
Amount A deferred pension commencing at age 55, equal to $2 \frac{1}{2} \%$ of final compensation for each year of total service.

## Ordinary Disability Pension

Eligibility $\quad$ Total and permanent disability at any age.
Amount A pension equal to 50\% of final compensation.

Work Related Disability Pension
Eligibility $\quad$ Work related total and permanent disability at any age. Impairment due to heart condition or hypertension presumed to be work related.

Amount A pension of $66-{ }^{2} / 3 \%$ of final compensation, but not less than the service pension.

## Death Benefit

Eligibility Death in active service after 1 year of service or after termination with a deferred pension. (No service requirement if death is work related).

Amount A pension of $33^{1} /{ }_{3} \%$ of the member's final compensation is paid to his widow until she dies or remarries. The benefit increases to $67 \frac{1}{2} \%$ of final compensation if the member has 20 years of service. (The pension is $50 \%$ if death is work related). In the event of death after termination with a deferred pension, the widow receives $671 / 2 \%$ of the deferred pension starting when the member would have been age 55 .

## Benefit upon Death after Retirement

Upon death of a retired member, $671 / 2 \%$ of his pension is paid to his widow. No benefits are payable upon the death of unmarried members. Note that there is no actuarial reduction for the spouse coverage.

Cost of Living Adjustment
For members in Court approved Plan:
Every other year COLA freeze for a ten year period effective July 1, 2013. In years 11 and 12 a $1.50 \%$ COLA would apply and then a 3.00\% COLA for each year thereafter, effective each July 1. Current and future widows will continue to receive $3.00 \%$ annual COLAs.

For members that opted out of Court approved Plan:
COLAs are frozen for a ten year period effective July 1, 2013. Upon the expiration of the ten year period, the COLA is capped at $3.00 \%$.

Contributions by Members
Firefighters $\quad 10.50 \%$ of base compensation plus longevity and holiday pay
Police $\quad 10.00 \%$ of base compensation plus longevity and holiday pay
