Hi Josh

I apologize for the delay in responding to you. I am trying to catch up on my emails and unfortunately this one got buried so I sincerely apologize for that!

RIDOT has concerns with the current proposed access on New London Avenue as it is currently shown from both an operational and safety standpoint. We had a meeting a few weeks ago with the developer and expressed these concerns and intend to follow up with a letter. We are actually working on this letter now and can share it with you once it is all set. Unfortunately I don't believe it will be done before your meeting tomorrow, but at a minimum I did want to share with you that currently RIDOT is not in agreement with the current intersection design. I am not sure how, or if, this affects the City's decision or not but wanted to make sure I kept you in the loop!

We will send you a copy of our letter as soon as it is finalized. Let me know if you have any questions in the meantime.

-Jill

Good afternoon,

Revised plans and a revised narrative were submitted for the Cranston Crossing / Mulligan's Island MPD application.

Please review and send me your comments, should you have any. The application is docketed for the December 1 Plan Commission meeting.

Kind regards,

Joshua Berry, AICP

Robert,

Thanks for taking my call and for your willingness to review this MPD pre-app proposal.

Here is the one-page overall plan. Later today the Planning Director will be doing an email distribution with the full plans and zoom meeting info, which is currently scheduled for 6/30 @ 2pm.

Thanks,

Joshua Berry, AICP
